-small & Medium Size Busines Focus

Adnet has developed a strategy for making process improvement is uniquely suitable for smaller businesses attempting to grow in the Federal marketplace. Budgeting constraints, longer procurement cycle and higher personnel turnover, are some of the factors used in building the Ad net CMMI implementation strategy.

The Adnet model works around these limitations in improving processes. Adnet also has solutions for the shortage of qualified personnel needed in model implementation. The pricing and payment model are tailored to the unique financial **condition of smaller businesses.** Process Improvement projects routinely cost significantly less for smaller businesses.
